

Hi my name is Daryl with Spector Group Digital Media and I'm excited to share with you our new refer a colleague program that can allow you to get any of the services that we offer absolutely free of charge.

All you have to do is refer a colleague by completing the short form to the right of this video, or below it if you are on a mobile device.

Once we receive the referral we will confirm that you are in fact the person that made the referral by sending you an email that requires a response.

Once we have made that confirmation we will contact the referral and have a conversation with them.

If your referral contracts with Spector Group Digital Media for search engine optimization, Google Adwords optimization, or website design, you can get your marketing done absolutely free- and here's how.

If your referral becomes a client for one of our monthly recurring services such as search engine optimization or Google Adwords optimization, you will receive a credit EQUAL to your referrals monthly cost, up to \$1,000.00. So, for example if your referral signs up for a service that is \$750.00 a month, then you would receive a one time credit of \$750.00

If the referral signed up for a \$300.00 a month service you would receive a one time \$300.00 credit, and if the referral signed up for a \$1500.00 service, you would receive the max one time credit of \$1000.00.

Now, If the referral signs up for a one time service such as a website build, you will receive a flat \$300.00 one time credit.

If you are a current client of Spector Group Digital Media, that credit will go against your monthly investment that you pay each month. So if you receive the max \$1000.00 credit and the monthly investment you make is \$750.00, then you would get one month free and \$250.00 off of the following month and so on.

If you are NOT a client, you would still receive that same credit, and it can be used against any of the services that we offer.

Now here is the really cool thing about this program! You can do this as much as you want, as often as you want- and if you do it enough, you could get your marketing done absolutely free, or at a minimum with an insanely huge discount depending on what the referral signs up for.

So think about all of the colleagues you know that might benefit from the services we offer, then go ahead and enter the information for your first referral in the refer a colleague box now.
